Kingston, Jamaica

The Jamaica branch of Scholastic in partnership with the Ministry of Education hosted a seminar at The Shortwood Teachers' College to train the teachers to use the new Scholastic teaching materials and techniques to be implemented in the primary school setting.

For the duration of the seminar my duties included:

- Registering teachers and other participants in-person and via telephone calls in a professional manner.
- Welcome teachers and other professionals and effectively answer any inquires they may have as well as guide them to the various lecture groups
- I was tasked with data entry and organization as well as the collection, packaging and timely distribution of materials needed by teachers for the seminar.

At the end of the seminar I was rated eight and a half stars for customer service.
